FEATURES
• High definition optical sensor delivers smooth, accurate cursor control
• Comfort grip provides a natural hand posture that cuts down on fatigue
• 2.4ghz signal provides a reliable wireless connection
• Mini receiver stores inside mouse when not in use
• No delays or drop-outs even in busy wireless environment
• Energy efficient circuit for longer battery life

SYSTEM REQUIREMENTS
• Windows® 2000, XP, Windows Vista®, Windows 7
• Mac® OS X v 10.4 or later
• Available USB port

GETTING STARTED

1. Install Batteries [not included]
2. Connect USB Receiver
3. You are ready to start using your mouse.

TROUBLESHOOTING
**FCC Statement**

This device complies with part 15 of FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction guide, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and the receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult a service representative for help.

Properly shielded and grounded cables and connectors must be used in order to comply with FCC emission limits. Tech Universe is not responsible for any radio or television interference caused by using other than recommended cables and connectors or by unauthorized changes or modifications to this product. Unauthorized changes or modifications could void the user's authority to operate the product.

Responsible party: Tech Universe  75 Montebello Road, Suffern, NY 10901

Warning

Improper setup, use and care of this product can increase the risk of serious injury, death or device damage. Read and keep this guide and all other printed guides for future reference. For updated information go to www.techuniverseproducts.com.

Do Not Attempt Repairs

Do not attempt to take apart, open, repair, service or modify the device(s). Doing so may risk electric shock or other hazard. Evidence of any attempt to open or modify the device, including any peeling, puncture or removal of labels, will void the Limited Lifetime Warranty.

**Health Warning**

Use of a computer mouse may be linked to serious injuries or disorders. As in many activities, when using a computer you may experience occasional discomfort in various parts of your body. However, do not ignore symptoms such as persistent or recurring discomfort, pain, throbbing, aching, tingling, numbness, burning sensation or stiffness. Promptly see a qualified doctor, even if symptoms occur when you are not working at your computer. There is general consensus among researchers that there may be many factors linked to the occurrence of these symptoms, including overall health, stress, physical condition and how a person positions and uses his or her body during work and other activities (including the use of a computer mouse). The amount of time a person spends performing an activity may also be a factor. If you have questions about how your own lifestyle, activities or physical condition may be related to these symptoms, see a qualified health professional.

**Battery-Powered Devices**

Use of disposable batteries in an improper manner may result in battery fluid leakage, overheating or explosion. Make sure to follow the battery installation instructions. Battery fluid is corrosive, may be toxic, can cause skin and eye burns, and is harmful if swallowed.

**Radio Frequency Technical Specifications: 2.4 GHz Devices**

Non-specific short range device. RF output power meets all SRD requirements.

**Wireless Devices**

Remove the batteries from any wireless device, or turn it off, before boarding an aircraft or packing the device in luggage that will be checked. Wireless devices can transmit radio frequency (RF) energy whenever batteries are installed and the device is turned on.

**RoHS Compliant**
